FACTORY-GLAZED CONCRETE MASONRY UNITS

interiorEXTERIOR

Introduction

Spectra-Glaze^{PLUS}® II

Factory Glazed Concrete Masonry Units

What is Spectra-Glaze® II Block?

Lightweight, modular concrete block with a permanent glazed facing one or more surfaces, integrally bonded to the base block in a unique manufacturing system.

Why Spectra-Glaze® II Units?

You enjoy design opportunities with a wide choice of color, texture, scale and pattern. Spectra-Glaze® II units provide superior resistance to soiling, chemicals, marking, impact, abrasion, urine, blood and acid rain. They are fire safe and non-toxic and meet all national building codes - and meet U.S.D.A. and OSHA requirements for sanitary walls. This excellent wall material provides the durability, fire resistance, insulation, sound control and all other constructional advantages of concrete masonry. With Spectra-Glaze® II units you build and finish a wall with one unit, in one labor operation, saving time and money. Spectra-Glaze® II units have been satisfying design needs in all kinds of buildings for more than four decades.
