

Dramatic Design Development for People Friendly™ Corners (F-Series Spectra-Glaze® Units)

Now, this outstanding glazed block corner system offers these added features for 8" and 12" through-wall units. They add up to benefits for architect and contractor alike:

Design Detail

Design Features

- Corners that interlock, when cores are filled with grout, for superior strength.
- Large, locking cores to assure easy reinforcement.
- Special design element that facilitates half-block cuts.
- Precise block dimensions and configuration for easy handling and installation.
