

Mr. Wright never got to know us.

Fallingwater by Frank Lloyd Wright.

But Elizabeth Wright Ingraham did.

Cole Heights by Elizabeth Wright Ingraham & Associates.

When Elizabeth Wright Ingraham, Frank Lloyd Wright's granddaughter, designed Cole Heights (above), she specified materials as uncompromising as her architectural vision. Including Spectra-Glaze II masonry by Burns & Russell.

These remarkable pre-glazed concrete units offer brilliant, decorative faces on lightweight, modular block. Precise factory construction means uniform sizes, from field units to cove bases to jambs and caps.

Spectra-Glaze II is available in 48 standard colors, including variegated earthtones, as well as countless custom hues. Other creative options include scoring, sculpturing, and our Reflecto-Lite finish. There's even a Spectra-Glaze/Soundblox series for noise reduction.

As the architect put it herself: "Spectra-Glaze gave us a durable exterior material with a

wonderfully broad color palette. In short, it offered us choice and beauty." Of course, Spectra-Glaze II is right at home indoors as well. And it saves construction time everywhere by providing a one-step, finished wall.

To find out more about Spectra-Glaze II, call Burns & Russell toll-free at 1-800-638-3188.
